

Saipem, incident on Castorone vessel. No injuries and no major damages to the pipelayer

Milan (Italy), January 30, 2024 - Saipem confirms that early this morning an incident occurred on the Castorone pipelay vessel off the waters of Australia during normal pipelaying operations. The incident did not cause injuries to personnel and localised damage to the trunkline was sustained which will be remediated. The Castorone vessel did not sustain any major damages.

The health and safety of our personnel, of the environment and our assets is a top priority for Saipem.

Saipem is a global leader in the engineering and construction of major projects for the energy and infrastructure sectors, both offshore and onshore. Saipem is "One Company" organized into five business lines - Asset Based Services, Energy Carriers, Offshore Wind, Sustainable Infrastructures, Robotics & Industrialized Solutions. The company has 8 fabrication yards and an offshore fleet of 23 construction vessels (of which 21 owned and 2 owned by third parties and managed by Saipem) and 15 drilling rigs, of which 8 owned. Always oriented towards technological innovation, the company's purpose is "Engineering for a sustainable future". As such Saipem is committed to supporting its clients on the energy transition pathway towards Net Zero, with increasingly digital means, technologies and processes geared for environmental sustainability. Listed on the Milan Stock Exchange, it is present in more than 50 countries around the world and employs about 30,000 people of over 120 nationalities.
